DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 24 March 2021 at 05:33 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Most parts of the UK will see Low levels of air pollution through today. It is possible that there will be some Moderate pockets of air pollution in urban areas of southeast England and across coastal parts of northern and western Scotland.

Tomorrow: Low levels of air pollution are expected for much of the UK, with the possibility of some occasional Moderate levels in coastal parts of northwest Scotland.

Outlook: With unsettled weather, much of the country will continue to see Low levels of air pollution although coastal parts of northwest Scotland will occasionally see Moderate levels.
